VACCELERATE

Volunteer Registry for COVID-19 Vaccine Trials

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 101037867

"VACCELERATE - A Single Entry Point For Europe"

VACCELERATE is:

- The new Pan-European COVID-19 vaccine trial network under the auspices of the European Commission.
- Committed to accelerate the further development of safe and effective vaccines against COVID-19.

SPEED-TRANSPARENCY-INCLUSIVENESS

The VACCELERATE Volunteer Registry:

A new EU effort to mobilise potential volunteers for participation in COVID-19 vaccine trials.

Our objectives:

- To establish EU-wide and country-specific harmonised volunteer registries.
- To achieve equal representation in COVID-19 vaccine trials in EU member states and associated countries.
- To provide access to populations around Europe, including groups that are currently under-represented in existing vaccine trials.

For registration, fill out a short (5-10 min) questionnaire.

If you are interested in becoming a volunteer in your country, please visit:

www.vaccelebrate.eu/volunteer-registry

The registry welcomes all citizens, including those with prior exposure to SARS-CoV-2 and/or prior vaccination.

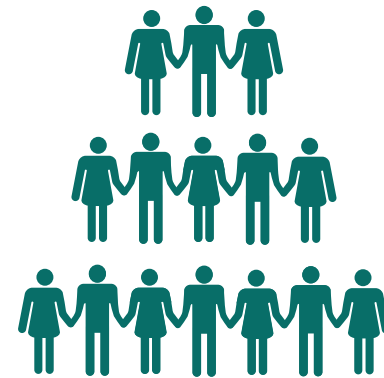

By registering, there is no further obligation to participate in any future trial.

Volunteer Selection Process

Registered Volunteers Interested in Study Participation

Eligible Volunteers Contacted
by Coordination Office

UNIKLINIK
KÖLN
