

# What is the VACCELERATE Volunteer Registry?

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 101037867

Please join us,  
Be the missing piece

A new pan European effort to mobilise potential volunteers including children, elderly and the general population across the European region to participate in vaccine trials.

Our main objective is the implementation of national harmonised adult and pediatric volunteer registries and the creation of a better and faster EU emergency epidemic preparedness plan.

# Why Is It Important for all of us to Register in the VACCELERATE Volunteer Registry?

This project has received funding  
from the European Union's  
Horizon 2020 research and  
innovation programme under  
grant agreement No. 101037867

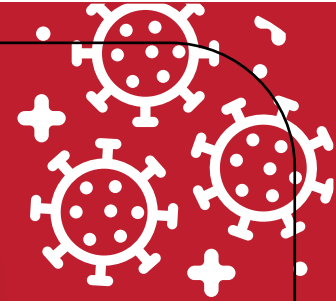

Please join us,  
Be the missing piece

Each one of us can contribute to the better and in-depth understanding of the COVID-19 immunity in the general population and in specific groups, including children, elderly, citizens with underlying conditions and under-represented minorities.

This effort will contribute to a better vaccination strategy and vaccine dosing in the future.

# What is the Process of Registration?

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 101037867

Please join us,  
Be the missing piece

The steps for the registration:

- Click on the link:  
[www.vacelerate.eu/volunteer-registry](http://www.vacelerate.eu/volunteer-registry) (or QR code above)
- Select your language from the list
- Fill out a short (5-10 min) questionnaire and consent

By expressing their interest and by registration, the volunteers do not commit to take part in any study and they can cancel their registration as well as request their data to be deleted at any time.
